

Survey of Geometry Notebook Evaluation Sheet
Spring 2004, Farris

Brief statement of problem (do not merely give the number of the problem):

Was this a difficult problem or a relatively simple one?

Is the solution completely correct, completely incorrect, or somewhere in between? Is the solution a thorough one, or were some aspects of the problem neglected? Comment.

What is most admirable about this mathematical work and the way it is presented? What, if anything, qualifies this as work that goes beyond the basic course requirements?

What could you suggest as an improvement?

On a scale of 1 to 10, with 10 being Excellent, how would you rate this work? _____
